AWARDED NAICS

Management and Advisory | 541611, 541612

This domain includes a full range of management and consulting services that can improve a federal agency's performance, aid its endeavors to meet mission goals, and provide operating advice and assistance on administrative and management issues.

Technical and Engineering (T&E) | 336611, 488190, 488999, 541310, 541330, 541330 (Exception 1), 541330 (Exception 2), 541330 (Exception 3), 541360, 541611, 541690, 611512

This domain covers specialized engineering, geoscience, and technical expertise, such as that of engineers, geologists, and technicians, to address specific government operating conditions and challenges. It involves applying engineering principles to design, develop, and utilize systems, materials, and processes, while offering expert technical advice and support.

Research and Development (R&D) | 541330, 541330 (Exception 1), 541330 (Exception 2), 541330 (Exception 3), 541380, 541611, 541713, 541714, 541715, 541715 (Exception 1), 541715 (Exception 2), 541715 (Exception 3), 541720, 621511

This domain includes any requirements in support of Research and Development activities. R&D activities may be aimed at achieving either specific or general objectives. The term R&D includes basic research, applied research and experimental development. Services include conducting R&D in the physical, engineering and life sciences; nanotechnology; biotechnology; and social sciences and humanities.

Intelligence Services (INTEL) | 541330, 541330 (Exception 1), 541330 (Exception 2), 541330 (Exception 3), 541611, 541715, 541715 (Exception 1), 541715 (Exception 2), 541715 (Exception 3), 541720, 561611

This domain focuses on Command, Control, Communications, Intelligence, Surveillance, and Reconnaissance mission requirements. Organizational and technological capabilities improve situational awareness and enhance command and control strategies within defense and intelligence environments.
